MY GOALS

For me education is really important and I also think that without it you can't go far, so one of my goals is to graduate from high school and then from there go to college and really get prepared to for the world in front of me. I also would want to be a part of Caryn International because I'm really interested in modeling and to see what this could bring to my future. I also love to learn from different cultures and one of my other goals is to travel around the world and just see what there is out there. I'm bilingual, I can read, write and speak English and Spanish I have also taken two years of French, I love to learn different languages because I feel that this could also open doors for me in the future. I'm just really excited to see what the future is going to bring and I hope that the goals that I have set for my self will help me get where I want to be.

I have learned so much in Performance One, not just how to walk down the run way and how to pose, I learned about how to stay healthy without having to starve yourself and how to look fit by doing exercise a few times a week. Erin our teacher was more than that because she made us all feel like we could talk to her without being shy about certain things that we had questions about and she just got us to respect her but at the same time she was our friend, I think that's why I felt really comfortable getting taught by her. I just want to let her know that she is an awesome teacher and that I really appreciate all her tips and her patience with all of us. Thanks a lot!

We would also talk about the options and great opportunities modeling can bring, but other than all those great things I learned that modeling is not just looking pretty but is hard work and a lot of responsibility, and if you want to do this you really have to be sure because not everybody is going to open their doors to you that easy so you have to be prepared to be rejected many times, because "A dream doesn't become a reality through magic; it takes sweat, determination and hard work".
