

From the time I walked into Cayrn International, to the time now, I have gone through many changes. These classes have given me confidence, not only on the runway, but my friends can see a definite change when I'm just walking down the hall. This class has also improved my social skills. The information I have received in this class has also improved my wardrobe, make-up, and eating habits. When I first signed up for this, I wasn't really sure if modeling was something I was right for. Now that I have some knowledge of the career, I'm both eager and ready to move to the next step. I don't think this class is just for someone who wants to be a model, it's for everyone. I would like to thank DeAnne and Cayrn for this awesome experience.
